AI Product Engineer with 5+ years of experience building web products end to end. I ship AI products and prove they work with evals: real-time voice translation at CAMB.AI, and LLM apps tested with red-team suites of 277 and 316 cases. Full-stack in TypeScript (Next.js, NestJS, PostgreSQL), from idea to production. Off-hours, padel and other sports.

SKILLS

Languages	TypeScript, JavaScript, Python, SQL, HTML, CSS, Java, Go, Rust
AI	Claude / Anthropic API, OpenAI API, Vercel AI SDK, AI agents, evals and LLM judges, red teaming, RAG, MCP, prompt engineering, Claude Code
Developer Tools	Git, Docker, PostgreSQL, Supabase, SQLite, GCP (Cloud Run), AWS, Vercel, Terraform, Temporal, CI/CD
Software/Frameworks	React, Next.js, Node.js, NestJS, Express, Prisma, Remix, React Native (Expo), Tailwind, shadcn/ui, Redux Toolkit, Vue, FastAPI, Django, Vitest, Playwright, WebSockets
Others	Architecture, UX/UI, Web Security/Performance/Accessibility, REST, SSR, Startup Experience

PROFESSIONAL EXPERIENCE

Plug Marketing (RaffleKing) - Dubai, UAE — Nov 2025 - Present

Senior Full-Stack Engineer – TypeScript, Next.js, NestJS, Prisma, PostgreSQL, Temporal, GCP:

- Developed skill-based prize competitions and free-to-play fantasy football for an international market, 5,000+ users.
- Built the competition engine (entries, draws, audit trail) on NestJS and Temporal, with scheduled, auditable draws.
- Built fantasy football scoring and leagues on live match data, plus an admin panel for payouts and moderation.

CAMB.AI - Dubai, UAE — May 2025 - Sep 2025

Senior Software Engineer – TypeScript, React, Node.js, Next.js, Python, FastAPI, GCP, Rust, Vue:

- Enhanced a production real-time voice translation app, cutting latency by 50% and integrating a new AI model.
- Built a website translation tool that translates static and dynamic content across multiple pages, users and languages.

SKY ENGINE AI Ltd. - London, United Kingdom

Lead Frontend Engineer – TypeScript, React, Redux Toolkit, Scrum: — Feb 2023 - Jun 2024

- Led 7 web projects, focusing on quality and team efficiency. Managed all environments, deployed new versions daily.
- Established the team culture: effective meetings, 1-on-1 sessions, strategic planning and constructive feedback for 7 projects.
- Led 15+ user testing sessions, resulting in 50+ UI/UX improvements.

Full Stack Engineer – TypeScript, React, Python, Django, Redux Toolkit & Query: — May 2022 - Feb 2023

- Redesigned a synthetic data platform front to back, which directly contributed to signing the first 5 business clients.
- Built core modules including authentication, user/platform management, CMS and design systems from 0 to 1.
- Wrote 150+ unit, integration and end-to-end tests and defined 100+ test cases for the QA team.
- Implemented email systems and upgraded legacy code, improving performance by 200% and scalability by 5x.

Unity-t Ltd. - Warsaw, Poland — May 2021 - Dec 2021

QA, Automation and Junior Software Engineer – TypeScript, React, Node.js, Selenium:

- Designed the API, backend and database for a testing system adopted across 5 teams, running 4500+ tests per day.
- Developed an interface for the automated testing system, enabling 4 manual testers to run and manage tests.
- Developed 70+ automated test cases and cut test execution time by over 25% with Bash scripting.

PROJECTS

- **Platero AI** (private beta, production paused): AI replies to restaurant Google reviews. Built a 277-case red team with LLM judges that raised the pass rate from 83% to 95%, and cut replies needing an owner's edit from 56% to 39%.
- **Safety Assistant (Asystent Bezpieczeństwa)** (in testing, city pilot in preparation): built a RAG assistant on expert-curated safety material and a 316-case red team mapped to the OWASP LLM Top 10, raising passing runs from 87% to 96%.
- **INRA - Independent Ranking** (Jun 2024 - May 2025): built a platform to discover, compare and share products from 0 to 1. Since 2024, delivered 20 freelance projects and advised 30+ clients, including C-level, on architecture, scaling and costs.
- **Reflex** (released on iOS in 2025): built a real-time multiplayer card game with React Native and NestJS WebSockets.

EDUCATION

Attended Warsaw School of Information Technology (WIT) — Sep 2020 - Sep 2022

IT Management Techniques (Computer Science)

Technical College (ZSP1 Siedlce) — Oct 2016 - Jun 2020

IT Specialist
